CHARACTER PROFILES

AOI FUKASAKU

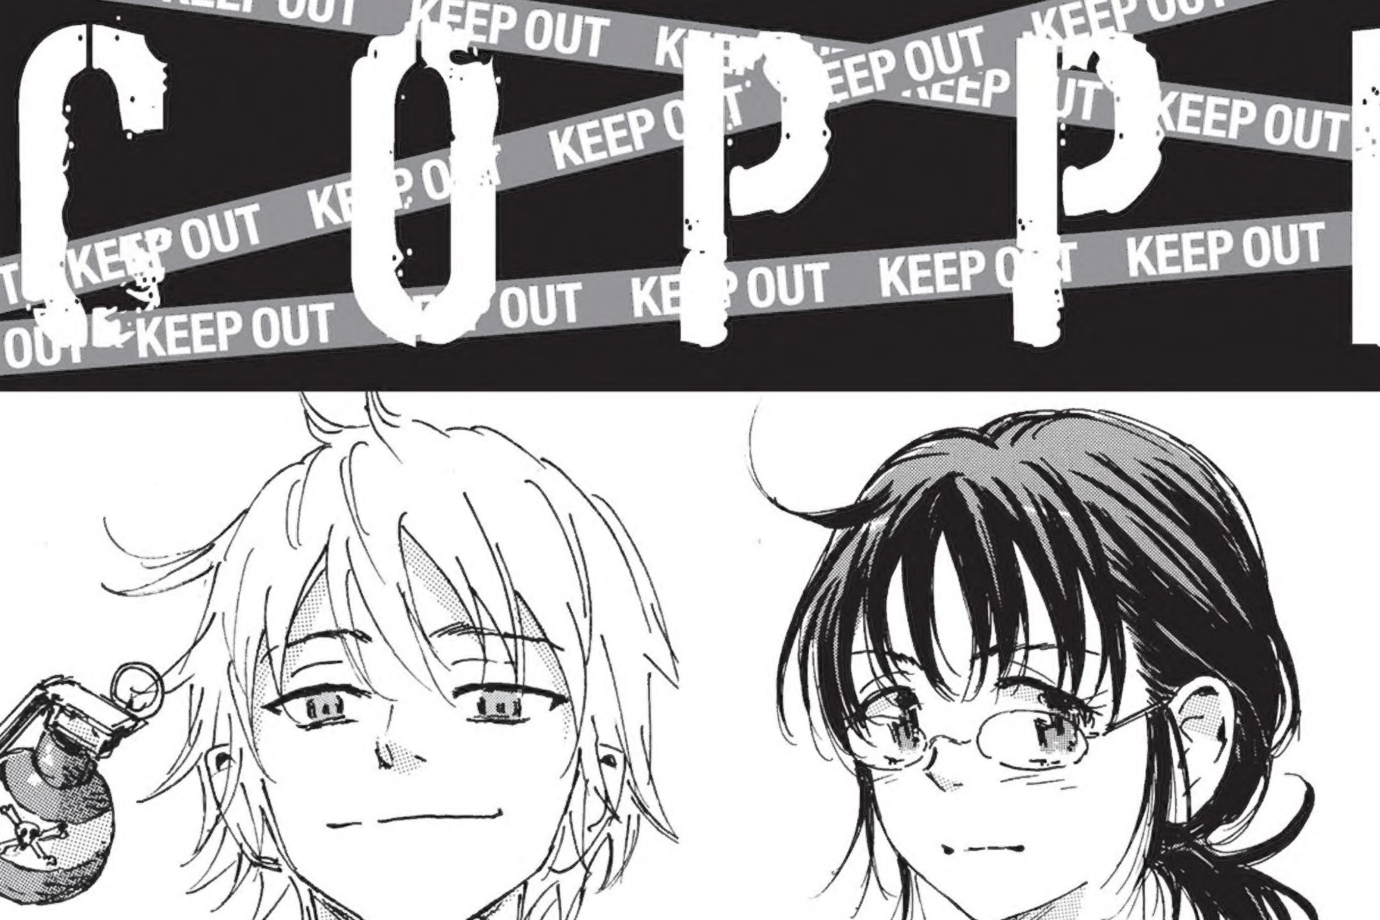
(HIGH SCHOOL FIRST-YEAR)

The Medical Unit's cheerful icebreaker. Aoi has a bottomless stomach, and although she constantly complains, her bright personality lifts the others up despite the disheartening conditions in Tokyo. She thinks herself an unrivaled beauty. She'd locked herself away in a storage room after losing her confidence, but she finally came back out.

IBARA NARUSE

(HIGH SCHOOL THIRD-YEAR)

Leader of the Coppelion Medical Unit. She possesses staggering athletic ability, and her combat skills are excellent. Relying on her strong conviction to save everyone in Tokyo to give her strength, she leads the search for survivors. Her speech can be a bit rough.



HARUTO KUROSAWA

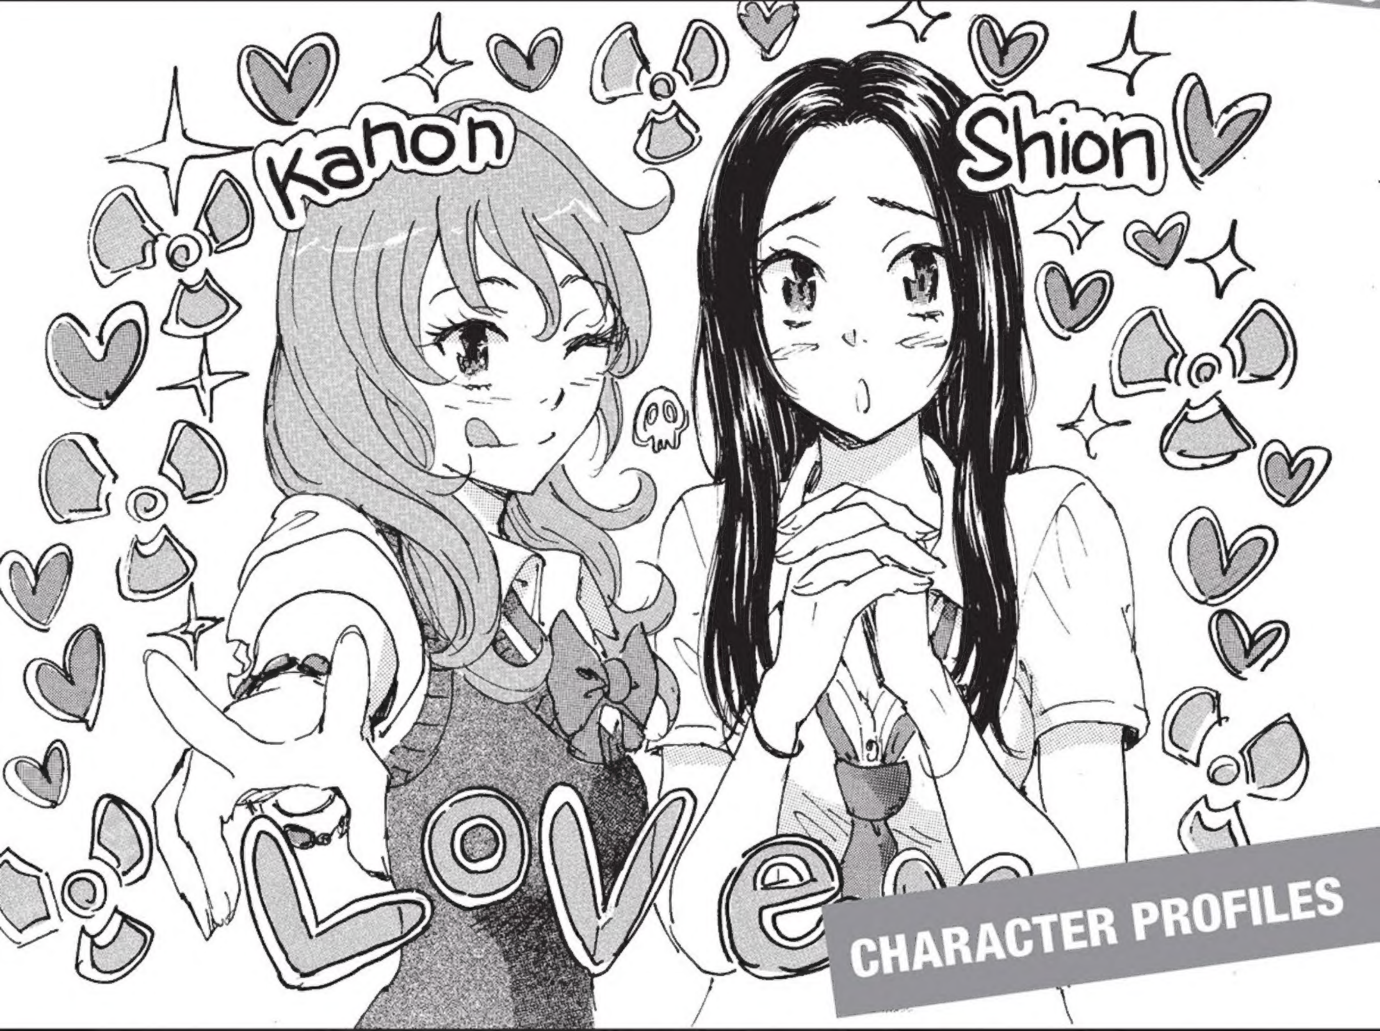
(HIGH SCHOOL THIRD-YEAR)

The leader of the Cleanup Crew. He's joined the Medical Unit as backup. He has a sharp mind and always keeps his cool. He enjoys crafting explosives. He seems wary of humans, but for the most part he remains a mystery...

TAEKO NOMURA

(HIGH SCHOOL FIRST-YEAR)

The Medical Unit's comforting member. She's quite knowledgeable and has superhuman senses (she wears glasses to reduce her eyesight to 10% of its true strength, because she sees too far). She loves animals. She's taken charge of delivering Ibuki's child.



CHARACTER PROFILES

KANON OZU

(HIGH SCHOOL THIRD-YEAR)

A member of the Cleanup Crew. The elder Ozu twin. Her DNA was spliced with that of an electric eel, giving her electric powers. She's also able to use her powers to sense ions in living things. She loves to bully little animals.

SHION OZU

(HIGH SCHOOL THIRD-YEAR)

A member of the Cleanup Crew. The younger Ozu twin. She was genetically engineered to have super strength—enough to crush rocks with her bare hands. She's prone to violence, but she adores her older sister.

THE MITAKA CITY SURVIVORS

The survivors who live within the Chofu-Mitaka area include the pregnant Ibuki, her father Gojiro, a construction foreman named Kurobe, Gennai the repairman, and robot guide No-sense. They've been living in a JAXA facility they call "Planet" for twenty years, ever since the nuclear meltdown, but with the "wind of death" carrying high-level radiation towards them, they've had to abandon Planet and aim to make their way to Shinjuku. Their lives depend on the success of Operation: Musashino Railway!
